Downloading Software

1. On your web browser go to www.savageuniversal.com/downloads/ Click the appropriate download button (depending on your computer) to download the software. Follow the computer's steps to installing the software.

Accessing Digital Backgrounds

2. With the purchase of the Savage Green Screen Digital Software, you have access to 3,500 digital backgrounds. To access these backgrounds, scroll to the bottom of the Downloads page and register for a user account by entering your email address and a password, then click Register.

3. Now that you are registered, scroll to the bottom of the page and enter the license key found in the insert of the DVD case.

The key format should follow: GSWL-XXXXX-XXXXX.

4. With a valid license key, you are now able to access the digital backgrounds. On the Downloads page scroll down until you see "Browse Digital Backgrounds. Select a category such as "Beaches/Waterfalls".

5. You will now see the digital backgrounds within this category. Click on the first image and you will see a button to download the file to your computer. Or choose to download the entire category at once by clicking the button titled "Download All Files" located at the top of the category gallery.

6. You will then be able to upload the background into the software by selecting "Load Background" on the program homepage and selecting the image from your computer files.
